

NexStar® SLT Series

Who says astronomy has to be complicated?

Introducing the NexStar SLT Series from Celestron. Star Locating Telescopes!

Designed to be an affordable entry level to mid-level computerized telescope, the NexStar SLT refractors and reflectors are available in the most popular sizes and are loaded with valuable design features.

- Use the computerized hand control to automatically locate over 4,000 celestial objects
- Includes Celestron's new SkyAlign technology which simplifies setup and use of computerized telescopes
- Telescope automatically tracks each object as it moves through the night sky
- Upgrade telescope software via the Internet, add GPS to the telescope for increased locating accuracy
- With pre-assembled, adjustable stainless steel tripods, and quick release fork arms and tubes, NexStar SLT telescopes can be set up in a matter of minutes — with no tools required!
- Best warranty in the business (2 year)

NexStar® SLT Series

NexStar 60SLT
Model #22076

NexStar 80SLT
Model #22086

NexStar 102SLT
Model #22096

NexStar 114SLT
Model #31143

NexStar 130SLT
Model #31145

Easy as 1 - 2 - 3!

SkyAlign™
Revolutionary New
Alignment Technology

NexStar SLT series telescopes feature Celestron's SkyAlign technology, simply input the date, time and location into the hand control then point the telescope at any three bright celestial objects in the sky. You do not need to know the names of the stars – you can even pick the moon or bright planets.
